

WELL COMPLETION REPORT

Village Name: Gamboula

GPS: Latitude 4.096280 Longitude 15.15277

Old Water Source

New Water Source

Well Location: Well F2238 is located at the Gamboula hospital.

People Served: While the population using the pump varies, this is the biggest and best equipped hospital in this part of the country, and people even come from Cameroon to get treatment. Previously, there was only one pump system for the entire hospital, and the families that came to stay there had to compete with the hospital needs. This well is specifically for all the family members who come to stay at the hospital.

Well ID: F2238
